Representation by Population

The Board of Directors has authorized preparation of an amendment to Article VI, Section 3 of the RNABC Bylaws to provide for a new schedule of voting delegate representation from chapters and metropolitan districts.

The amendment will be prepared according to a schedule presented to the Board in November by the Greater Vancouver District. If adopted by voting delegates at the annual meeting in May, the new schedule would result in better representation by population.

The maximum number of voting delegates would be 25 for a membership of 5,500 to 5,999. A membership of 1 to 49 would have one voting delegate; 50 to 99, two voting delegates; and 100 to 149, three voting delegates.

The full amendment will be published along with other proposed bylaw amendments in the RNABC News prior to the annual meeting.

RNABC NEWS INDEX—1973

ANGUS, MONICA
Impact of lunar theories of patient behaviour 15 Feb./March.

ASSOCIATION OF REGISTERED NURSES OF QUEBEC
New name given 6 v 5#5.
